

OKITE[®]cture

CRUISE SURFACE SOLUTIONS

OKITE®

OKITE®

OKITE® è il marchio distintivo dei prodotti Seieffe, un materiale composito composto principalmente da minerali agglomerati. Fin dall'inizio, l'obiettivo principale è stato quello di posizionare OKITE® nell'amentedei consumatori come un prodotto di qualità superiore, con caratteristiche tecniche straordinarie.

Oggi, grazie a una strategia di marketing intelligente e mirata, OKITE® è diventato una vera e propria categoria di materiale, superando il concetto di semplice marchio di prodotto.

Viene prodotto in lastre di vari spessori (1,3 cm, 2 cm e 3 cm), e una volta lavorato dai trasformatori, è ideale come superficie di lavoro per cucine e bagni, oltre che per rivestimenti interni sia verticali che orizzontali.

La composizione di OKITE® è costituita da circa il 93% di minerali agglomerati, che conferiscono durezza e resistenza eccezionali, fino a cinque volte quella del granito comune. I minerali impiegati vengono attentamente selezionati e sottoposti a rigorosi controlli di qualità dal reparto Ricerca e Sviluppo di Seieffe.

Attualmente, OKITE® è disponibile in oltre 50 colori.

OKITE®

OKITE® is the distinctive brand of Seieffe products, a composite material primarily composed of agglomerated minerals. From the beginning, the main objective has been to position OKITE® in consumers' minds as a superior quality product with extraordinary technical features.

Today, thanks to a smart and targeted marketing strategy, OKITE® has evolved into a true material category, surpassing the concept of a simple product brand.

It is produced in slabs of various thicknesses (1.3 cm, 2 cm, and 3 cm), and once processed by fabricators, it is ideal as a work surface for kitchens and bathrooms, as well as for both vertical and horizontal interior cladding.

OKITE®'s composition consists of approximately 93% agglomerated minerals, providing exceptional hardness and resistance, up to five times that of common granite. The minerals used are carefully selected and undergo rigorous quality checks by Seieffe's Research and Development department.

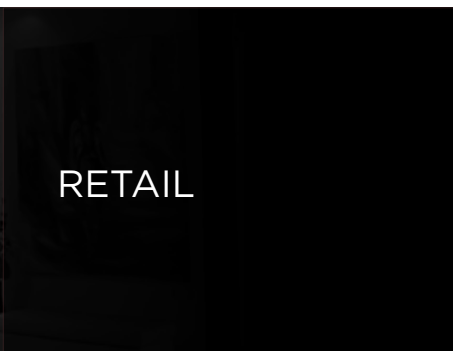

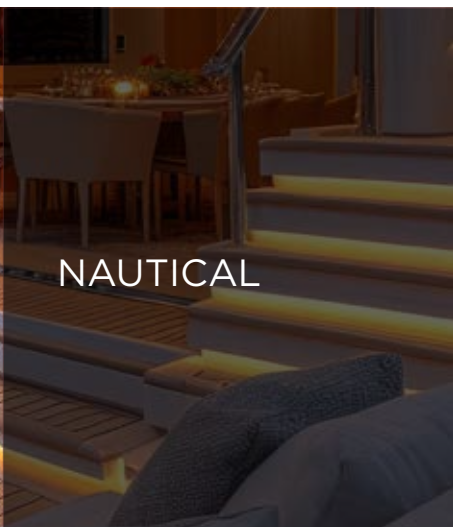

Currently, OKITE® is available in over 50 colors.

OKITE®

COLLEZIONE TRANSLUCENT

La Collezione Translucent, con la sua traslucenza che incanta, trasforma l'ordinario in qualcosa di assolutamente straordinario.

Il suo rapporto unico con la luce le conferisce una qualità completamente diversa da qualsiasi altra superficie di arredo.

Per essere un materiale dal così forte impatto visivo, è anche sorprendentemente pratico.

La forza e la durezza lo rendono più resistente, più versatile e più facile nella manutenzione del granito, marmo o onice.

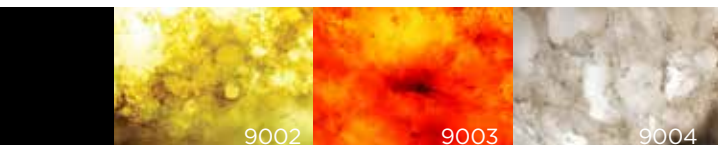

TRANSLUCENT COLLECTION

Translucent Collection spell-binding translucency transforms the ordinary into the extraordinary.

Its unique relationship with light makes it completely unlike any other design surface.

For a material so visually stunning, it's also surprisingly practical.

The compelling strength and durability make it tougher, more versatile and easier to maintain than granite, marble or onyx.

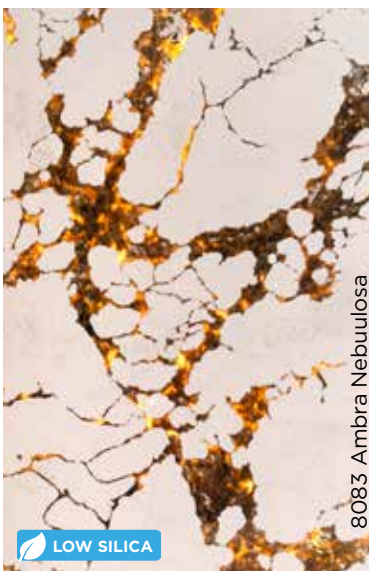

Translucent è la collezione di OKITE®, prodotta in cinque varianti, ognuna con un cuore trasparente retroilluminabile con luci a LED.

OKITE's newest collection, this precious stone-effect collection is produced in five varieties, each with a transparent core that can be backlit with LED lights.

COLLEZIONE TAJ

La nuova collezione OKITE® fonde luce e materia in un'armonia perfetta.

Vene fluide. Riflessi delicati.
Cromie pure. Raffinata sobrietà.

Grazie alla rivoluzionaria formulazione a basso contenuto di silice e alla sua inedita traslucenza visiva, OKITE® Taj supera i confini delle superfici tradizionali.

Un'esperienza sensoriale pensata per spazi in cui il design contemporaneo incontra la profondità emotiva.

La luce danza attraverso la nostra innovativa collezione OKITE® a basso contenuto di silice, mentre le vene naturali della quarzite scorrono sotto una traslucenza sorprendente, dando vita non solo a superfici, ma a vere e proprie esperienze.

Pura. Elegante. Senza tempo.

TAJ COLLECTION

The new OKITE® collection blends light and material in perfect harmony.

*Flowing veins. Subtle reflections.
Pure chromatics. Quiet sophistication.*

With its revolutionary low-silica formulation and distinctive visual translucency, OKITE® Taj transcends the boundaries of traditional surfaces.

A sensory experience crafted for spaces where contemporary design meets emotional depth.

Light dances through our innovative low-silica OKITE® collection, as the natural veins of quartzite flow beneath a captivating translucency—creating not just surfaces, but true experiences.

Pure. Elegant. Timeless.

COLLEZIONE NATURA

Il fascino del marmo, pietra che ha dato origine a capolavori senza tempo, entra nelle vostre progettazioni per donarle un fascino inconfondibile.

Ben 18 sono le raffinate varianti che costituiscono la Collezione NATURA ispirata alla Natura e frutto della tecnologia OKITE®, in un mix di passato e futuro capace di rendere eterna la bellezza.

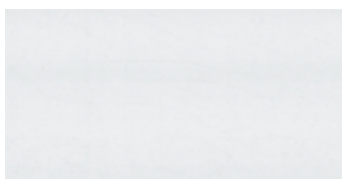

Creatività, tecnologia, professionalità ed artigianalità sono gli ingredienti della Collezione NATURA, riscoprendo la bellezza e l'autenticità delle superfici senza tempo con le caratteristiche dei prodotti a marchio OKITE®.

NATURE COLLECTION

The beauty of marble, beating heart for timeless masterpieces, comes into your designs giving a unique charm: 18 new stunning colors inspired by nature, a mix of past and future for the eternal beauty.

Feel the beauty of timeless surfaces. A stylish Collection reflecting all the properties of the OKITE® products and embodying elegance and sophistication. Eleven colours bring you into a "new exciting world". Made in Italy, Creativity, Technology, Design, Quality all in one Product.

This is the new OKITE® Nature Collection: the eternal beauty is not so unreachable anymore, it is only a step closer.

8052 Calacatta Oro

The monochromatic coloring makes the surface a perfect complement for any modern project, while its iconic Calacatta veining pattern and overall glamour also blend well with elements of traditional design.

8065 Panda White

It presents itself intensely with a white background, accentuated by lines of deep black in wider stripes or thicker waves, much more pronounced compared to other types of OKITE surfaces. Thanks to its veining, beautiful contrasts can be created, whether used individually as an element in an artistic context, or for accent walls, kitchen and bathroom countertops, tables, or even more extensively to cover walls and floors for an impeccable result.

COLLEZIONE CLASSICA

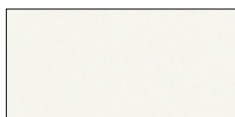

Collaboriamo con architetti di fama internazionale che contribuiscono a mantenere alto lo standard del Made in Italy nel mondo.

Ideale per residenziale, bagno rivestimenti e non solo.

NAUTICA

OKITE è una superficie perfetta per soddisfare le esigenze del settore nautico.

Grazie alla sua elevata resistenza si conferma una scelta ideale per le imbarcazioni, garantendo durabilità e prestazioni eccellenti.

La sua estetica raffinata e la versatilità nei design permettono di creare ambienti eleganti e funzionali a bordo, resistendo alle sfide più severe del mare.

Per le superfici interne come tavoli e piani di lavoro, scale, rivestimenti OKITE rappresenta una soluzione di alta qualità, praticità e stile per il mondo della nautica.

NAUTICAL

OKITE is a perfect surface to meet the needs of the nautical sector.

Thanks to its high resistance, it proves to be an ideal choice for boats, ensuring durability and excellent performance.

Its refined aesthetics and design versatility allow for the creation of elegant and functional spaces on board, withstanding the toughest challenges at sea.

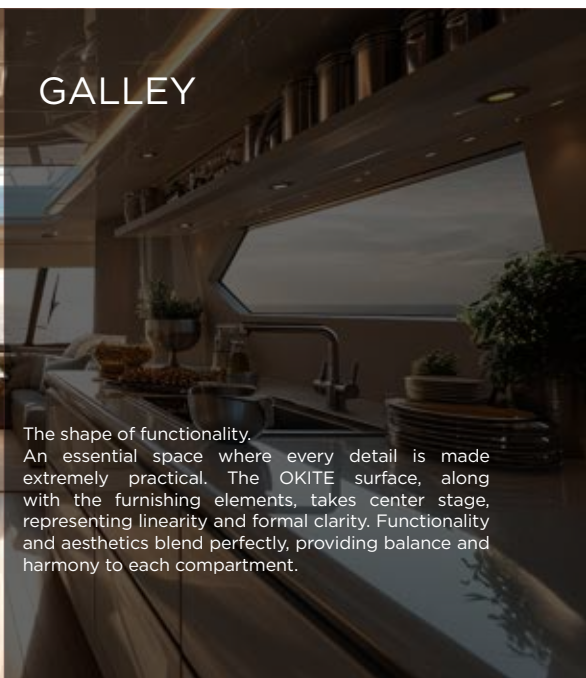

For interior surfaces such as tables and countertops, stairs, and coverings, OKITE represents a high-quality, practical, and stylish solution for the nautical world.

ELEGANCE AND
DURABILITY FOR THE
NAUTICAL WORLD

GALLEY

The shape of functionality.
An essential space where every detail is made extremely practical. The OKITE surface, along with the furnishing elements, takes center stage, representing linearity and formal clarity. Functionality and aesthetics blend perfectly, providing balance and harmony to each compartment.

BATHROOM

Style and relaxation.

In an elegant nautical setting, the modern bathroom must be a relaxing space where every detail—from spatial planning to furniture design—meets the customer's needs, embodying a unique style. This is achieved with spacious, bright areas, but above all through a careful selection of the right furniture and materials, such as OKITE surfaces, which blend elegance and functionality in every detail.

BUFFET

Safety and Hygiene

NSF-certified OKITE surfaces are the ideal choice for buffet areas on boats, providing a safe product suitable for food preparation in residential, private, and public settings. The non-porous surface of OKITE is stain-resistant and prevents the absorption of moisture and food residues, thereby reducing the risk of harmful bacteria formation.

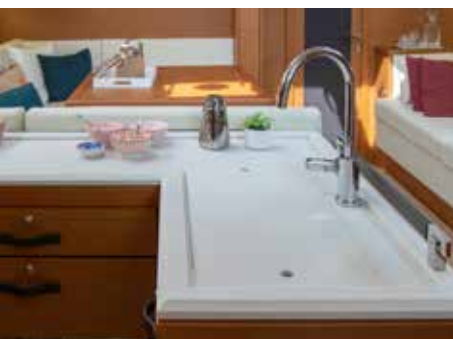

STAIRS

Elegance and Durability for High-Traffic Nautical Spaces.

OKITE surfaces are the ideal solution for high-traffic areas such as those on cruise ships, offering a perfect balance of elegance, durability, and functionality. Perfect for creating luxurious spaces, OKITE adds a touch of refined elegance while withstanding the demands of frequent use.

RETAIL

Lo shopping è più piacevole quando arricchito da un ambiente esteticamente gradevole. In questi spazi OKITecture gioca la sua parte con pavimenti, piani di lavoro e rivestimenti decorativi. I suoi materiali estremamente durevoli, resistenti alle macchie ed ai graffi, facili da pulire e straordinari nella loro manutenzione, ne fanno la scelta ideale in qualunque ambiente ad alta frequentazione.

The retail experience is enhanced by an aesthetically pleasing environment. In shopping destinations OKITecture plays its part as flooring, counter tops and decorative cladding. The durability of its selection of materials makes them ideal for high traffic areas and offers an added benefit for maintenance operations.

HOSPITALITY

Il settore alberghiero è in continua espansione ed evoluzione. Gli hotel stanno diventando sempre più un elemento importante nella ricerca di momenti memorabili. OKITecture collabora con designer e architetti di tutto il mondo, al fine di trovare soluzioni adeguate e corrispondenti alle loro molteplici esigenze e standard di progettazione. Ovunque sia necessario rispettare severi requisiti in termini di estetica, qualità e durata, con la sua offerta di agglomerati e superfici ceramiche, OKITecture offre una vasta scelta di prodotti e colori che non richiedono particolare manutenzione, al contempo proponendo tutti i benefici estetici delle pietre naturali, senza molti dei loro svantaggi.

The hospitality sector is expanding and evolving. The hotels are becoming more and more an important element in the search of memorable moments. OKITecture works with designers and architects worldwide in order to find appropriate and brilliant solutions to their various design needs and standards. Wherever strict requirements in terms of aesthetics, quality and durability are needed, with its selection of minerals composite materials and ceramic surfaces, OKITecture offers a wide choice of long-lasting colours that require no further treatment and meanwhile providing all benefits of raw stones without many of the disadvantages.

RESIDENTIAL

Edifici storici che acquistano nuova vita o progetti di ultima generazione. OKITecture propone una vasta gamma di prodotti innovativi che riflettono le ultime tendenze del mercato, poiché il valore, la funzionalità di una casa sono aspetti che soddisfano le esigenze delle persone che vivono in essa. Le rinomate proprietà igieniche della nostra selezione di agglomerati minerali e superfici in ceramica, la loro resistenza al calore e la straordinaria facilità nel pulirle, le rendono superbe superfici per ogni tipo di applicazione in ambiente cucina e bagno, fino ai pavimenti e rivestimenti per pareti doccia.

Historical buildings that acquire new life or brand new projects. OKITecture is ready to propose a variety of innovative products that reflect the market trends. Because the value, the functionality of an house are aspects that comply with the needs of the people living in it. The outstanding hygienic properties of our selection of minerals composite materials and ceramic surfaces, together with easy maintance and excellent heat resistance, make them superbe surfaces for kitchen and bathrooms applications as well as flooring or cladding for walls or shower units.
